Re: Corr-Ze

To whom it may concern,

PPG Protective & Marine Coatings neither prohibits nor promotes the use of Corr-Ze, or similar products, during the preparation stage of surfaces to be coated for atmospheric service provided Corr-Ze is used per data sheet guidelines.

The use of Corr-Ze should receive approval from the owner or his or her designated representative.

Please note that PPG PMC does not endorse the use of Corr-Ze, or similar products, during the preparation stage of surfaces for immersion service.

Please advise if there are any questions.

Sincerely,

*Marshall Fayard*
