

## Approved Uses of Corr-Ze Surface Preparation products with Carboline Coatings

Carboline can approve the use of Corr-Ze series surface prep products with Carboline coating systems provided that:

- The Corr-Ze product is used as directed by the Corr-Ze Product Data Sheet
- The Carboline coating system must be an Organic coating system (similar, but not limited to: Carbomastic 15, Carboguard 890, and/or Carbothane 134 (series))

Please let us know if we can be of further assistance. Thank you for choosing Carboline.
